

CLARK COUNTY SCHOOL DISTRICT REGULATION

5135.6

ATHLETIC APPEAL PROCEDURE

It is expected that during the regular completion of the scheduled athletic program, problems will be identified from interpretation of a policy, regulation, or procedure. When this occurs, a course of action will be immediately instituted that will resolve the problem and ensure that all concerned parties are made aware of the decision.

I. Level I

In the event that any of the aforementioned problems occur, the school principal will investigate the matter and render the decision based on the interpretation of policy, regulation, or procedure.

II. Level II

A. In the event that any of the involved parties object to this decision, a ruling may be requested from the Director of Student Athletics.

B. The Director of Student Athletics will request and review a written summary of the principal's findings, interview all concerned parties, and render a decision within five working days after the receipt of a written request.

C. The decision of the Director of Student Athletics will be based on the interpretation of the affected policy, regulation, or procedure, and any extenuating circumstances that may have bearing on the matter.

III. Level III

A. If any of the concerned parties disagree with the ruling rendered at Level II, they may request that the ruling be appealed to the Executive Director of the Nevada Interscholastic Activities Association
