

Dear Honeywell Educator,

Congratulations on being accepted to the **June 17-23, 2008** Honeywell Educators @ Space Academy program. We are looking forward to this exciting week with you at the U.S. Space and Rocket Center in Huntsville, Alabama. We have many wonderful things planned for you while you are here, so get your rest ahead of time. You have an action packed week ahead of you!

Honeywell has generously provided this weeklong experience for you. The sponsorship includes airfare to and from Huntsville, lodging & meals while in Huntsville, and program materials. This experience is only for you and we will not be able to accommodate family members. If you would like to see about having children participate in a SPACE CAMP program while you are here, please see www.spacecamp.com.

You will be traveling to Huntsville, Alabama on Tuesday, June 17. There will be staff at the airport to greet you and bring you to our facility. We will start the program officially first thing Wednesday morning. Each day you will be in activities from about 7am until 8pm. You will be staying in the residence hall at the University of Alabama in Huntsville. You can find out more about the program and what to bring at <http://www.spacecamp.com/educators/honeywell/>.

At the beginning of April, you will receive an email from an online travel agency inviting you to book your travel to Huntsville. We will email you detailed information describing this process prior to April 1. Honeywell will only be able to sponsor your travel from you home location to Huntsville and back to the same airport.

Each day will be packed full of activities for you to take back to your class. You will also be able to participate in all of the simulations and experiences that Space Camp is known for. For a summary of the activities please see the above web link. This is a tentative list pending confirmation of other special arrangements. There is no need to do any preparation before the experience. If you have any concerns, please contact me.

This weeklong program offers approximately 45 hours of intensive classroom, laboratory, and training time. You will receive CEU's for your participation. Be sure to check with your district ahead of time about any pre approval or forms that might need filled out while you are here. Please contact us if you have questions or need more information to provide to them.

Your program will finish on Sunday evening and your flight arrangements will be made for first thing on Monday morning, June 23.

I look forward to meeting you and sharing our amazing facility and program with you. Please contact me if you have any questions. Congratulations and we look forward to meeting you.

Sincerely,
Katrine Balch
Director of Education
