Officer Ramon Denby
Officer Jacinto Rivera
Officer Barbara Morgan

LVMPD, CCSD, the City of Las Vegas & UNR Partner to Bring Health Care to Campus of Elementary School

At Matt Kelly Elementary School, not only is the nurse in but the doctor is in too. The Matt Kelly Elementary School Based Health Center will open for business Friday, September 11th to provide onsite care for the 320 students who attend the school.

Matt Kelly, is located in one of the most economically challenged areas in Las Vegas. Many of the students who attend the school do not have health insurance and might not receive medical care without the campus facility.

The health center is a collaborative effort between the University of Nevada Reno Medical School, The City of Las Vegas, CCSD, Metro Police Department, and the Nevada Youth Alliance. Medical residents from UNR will be the attending physicians.

On **Friday, September 11, 2009 at 2:00 p.m.** media is invited to see the health center and to get interviews with Matt Kelly Assistant Principal Carol Meltzer, LVMPD Capt. Pat Neville, and UNR Dr. Caroline Barangan.

Due to limited space in the health center, please contact Metro PIO Jay Rivera to arrange for interview times. 828-4083
