

CLARK COUNTY SCHOOL DISTRICT REGULATION

6143

HOMework

- I. Homework assignments shall take into consideration the individual needs and abilities of the students. Routine work on skills, which have already been mastered, shall be avoided.
 - A. Homework assignments should generally be an outgrowth of classroom interests and activities. Holidays and weekends should ordinarily be free for outside activities. The student should always understand the purpose of the homework assignment and be certain as to what to do or what to look for.
 - B. Difficult or new work should always be thoroughly taught before home study is given. Homework assignments should be carefully given and, if necessary, started in the classroom under supervision. Homework assignments should be acknowledged and checked and/or graded as appropriate.
 - C. Teachers shall insist on high standards of work turned in by students. Accuracy, neatness, legibility, proper arrangement on the page, and correct spelling and punctuation are to be stressed.
 - D. Study habits should be taught by the teacher in order to promote a higher degree of benefit from homework.
 - E. Consideration should be given to the child's outside activities.
 - F. Homework assignments that are viewed as punishment have very limited educational value and should be avoided.
