

## **EDUCATION SERVICES DIVISION**

### **Office of Curriculum and Development**

Students who desire or have been identified to receive a non-traditional education require an innovative, flexible approach to curriculum and instruction. The Office of Curriculum Development is responsible for researching best practices in alternative education instruction and coordinating their implementation throughout Education Services Division schools and programs. The Office of Curriculum Development also provides instructional staff the professional development needed to execute these unique curricular strategies.

In addition to the above responsibilities, the office assists the Department of Pupil Personnel Services in ensuring that charter schools sponsored by the Clark County School District are in compliance with the Nevada Revised Statutes governing their operation. The Board of School Trustees, Clark County School District, has authority to grant and revoke charters of this type of school in the Clark County area. For further information regarding the statutes and regulations governing the development and operation of charter schools, please visit the online Nevada Law Library, or use the contact information below.

For further information, please contact:  
Jeff Krantz, Coordinator, Office of Curriculum Development  
(702) 799-1605.
