PARENTAL CONSENT TO DISCLOSE STUDENT INFORMATION TO THE STATE OF NEVADA DEPARTMENT OF HEALTH AND HUMAN SERVICES, DIVISION OF HEALTH CARE FINANCING AND POLICY

The Clark County School District (District) provides school-based child health services to children with an Individualized Education Program (IEP) at no cost to our parents/guardians. Federal Medicaid funds are available to school districts to help cover the costs of providing these necessary services. To access these funds, the District participates in the State of Nevada Department of Health and Human Services, Division of Health Care Financing and Policy (DHCFP) Medicaid school-based child health services (SBCHS) program.

School districts can request reimbursement for eligible school-based child health services, such as speech, occupational and physical therapy, and nursing services. In order to seek the Federal funds, the District must disclose information to DHCFP from those student's education records for which reimbursement is sought. The information that must be disclosed includes the student's name, date of birth, and information regarding the service that was provided, such as the date, type, and duration of service.

The District requests your consent to disclose information from your child's education records to DHCFP, only as necessary, for the District to seek Medicaid funds to help cover the costs of the school-based child health services the District provided to your child. Whether or not you give your consent or if you withdraw your consent, the District will continue to provide necessary health services to your child at no cost to you, the parent/guardian.
