

IC Settings in Firefox for Adobe for Simple Forms

1. In the upper right hand corner, select the **3 horizontal bars** (If you do not see these 3 bars go to Step 3).

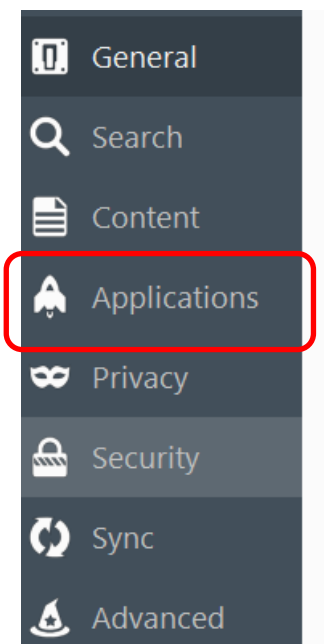

2. Select **Options**

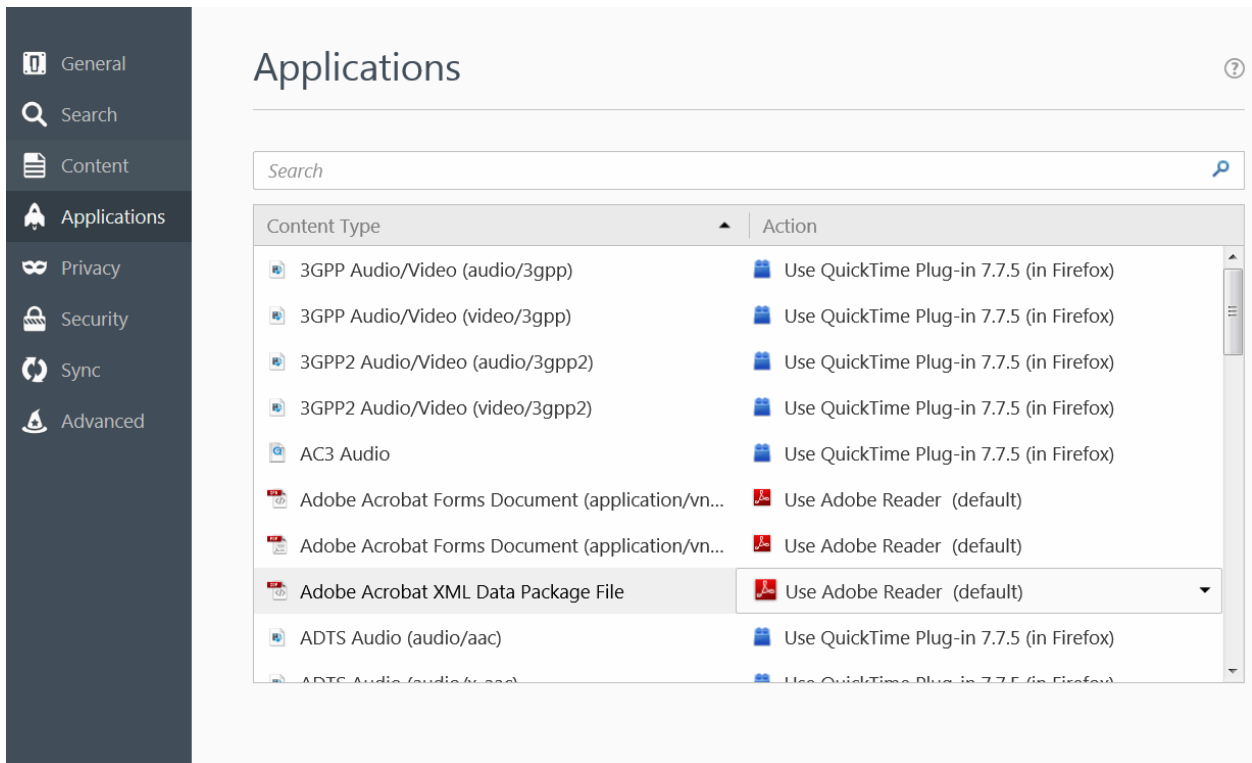

3. If you do not see the 3 bars, type **about:preferences** in the address bar.

Choose **Applications** on the left hand side

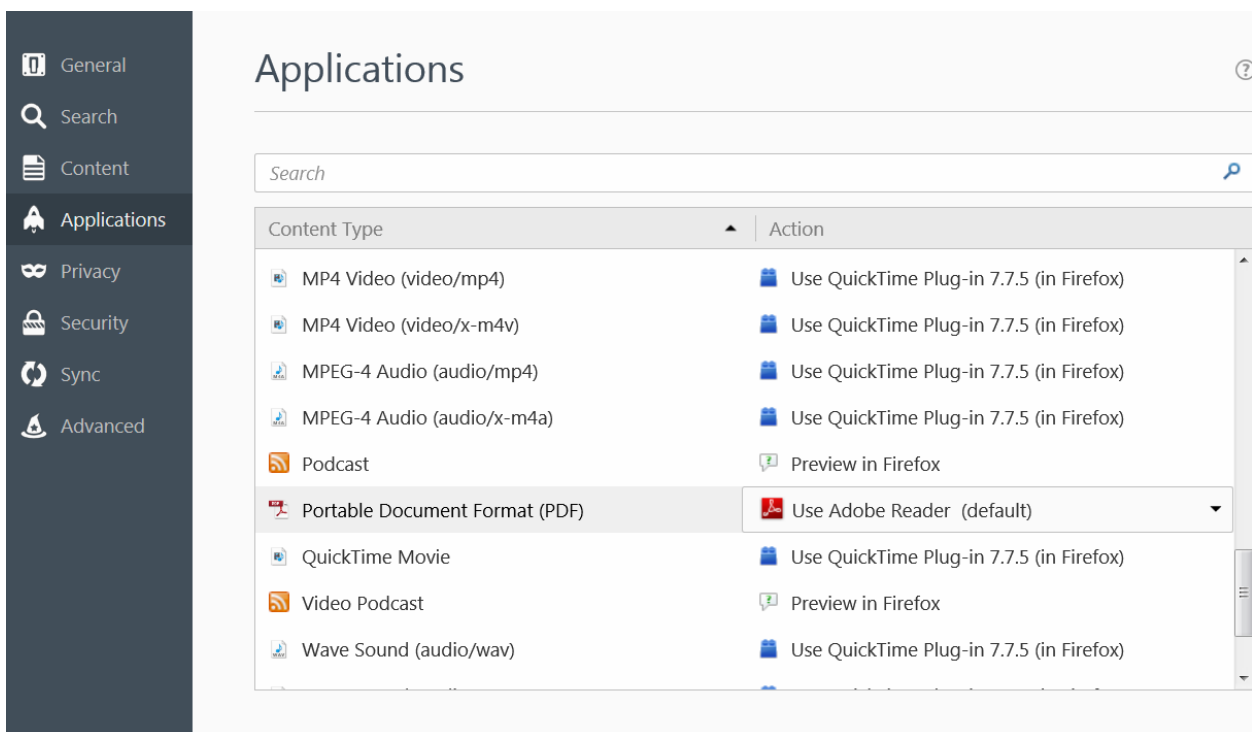

4. Select the appropriate boxes below (Whatever version of Adobe Reader is on the right, is ok. It can also be Adobe Acrobat). It just **CANNOT** be Use Adobe Acrobat/Reader in Firefox).

The screenshot shows the Firefox 'Applications' settings page. The left sidebar has tabs for General, Search, Content, Applications (selected), Privacy, Security, Sync, and Advanced. The main area is titled 'Applications' and contains a search bar and a table of content types and their actions.
