

Principal's Message  
September 2008

Dear Parents and Guardians,

**Welcome** to Desert Oasis High School! The opening of the school year was extremely successful for over 1500 students, 62 teachers and over 30 support staff members. *Thank you* parents for sending us well prepared students eager to learn.

The **DOHS** Vision is to graduate students prepared for continuing education and making positive contributions to our community. All Diamond Back educators are dedicated to offering students the opportunity to achieve an education and exercise effective citizenship. We are a team of students, parents and teachers working together, creating a sense of belonging by sharing ideas and maintaining a safe learning environment.

Please examine our **new** school's website and place it on your home favorite sites. It includes important information about library services, scholarships, and student grades by accessing Parent Link, athletic events, the daily school bulletin, Parent Advisory Council meeting agendas and various school activities. You will further increase student achievement by staying involved and informed with your child's education. Let's begin a Diamond Back tradition of excellent parent involvement and communication.

If there are any families in need of assistance with acquiring school supplies, please contact your student's guidance counselor. Challenging economic times have impacted many students and we certainly want to offer as much support as possible.

We are all very excited about this inaugural school year. *Please* join us as we encourage our students in the classroom, in the performing arts and on the playing fields. Hope to see everyone at our Open House on **Tuesday, October 7<sup>th</sup>** at 6:00 p.m. (There will be an optional parent reception in the gymnasium at 5:30 p.m.)

Respectfully submitted,

Mr. Emil T. Wozniak, Principal
