TEACHERS WILL ISSUE QUARTER GRADES FOR THE 2008 SCHOOL YEAR ON:

Quarter:	Quarter Ends:	Report Cards-mailed
Fourth	June 4	June 13

Dear PAC Members:

Summer, heat, reunions, and children asking: "What can I do now?" are upon us. Although school may be out for some of our students, many remain on year round calendars...and in reality, learning is a year round endeavor. When students are away from formal education, the responsibility and opportunity now rests with the HOME. What a great place to teach and learn. I've always said that all of us are teachers to others, but particularly to our family.

Recently I took a tour of the Clark County Wetlands Park. It is located where Tropicana Blvd. East meets Broadbent. What a wonderful opportunity to see running water and wildlife that most residents would not believe is found within our city boundaries. Although I visited at midday, I would recommend an early morning visit or early evening during our "hot" season. There are also field trip opportunities throughout the school year, September-April. They will soon have a facility that will be able to be used for community meetings, and I would encourage PTA or parent groups to look into this educational gem.

I might suggest that this would be a good time to talk as families about conservation measures such as recycling, improving gas mileage, saving electricity and water. My children remind me often how I would "charge" them a quarter when they left their closet doors open during the summer because I said: "We don't need to air condition your closet." As they have families of their own...they now realize what I was talking about. I believe it is important to let our children know of the expenses of running a home. What a great time of year to let them help you with the shopping, paying of bills, and working on a family budget as you take a vacation. One of the comments we received a year ago when we brought back our graduating students in a Community Linkage meeting, was that CCSD had not prepared our young people to meet financial challenges. I know that families could become an active participant in this process. I would enjoy hearing of any ideas you have on how you train your children in \$\$\$\$\$\$ management.

I congratulate all students on the work they have done this year to prepare themselves to go on to the next classroom or school. Over the summer, help students to retain the math facts, reading, science projects, art, music, and other classroom activities they have been participating in this past year. All of us should be "Life Time Learners." Let our children watch us learn new things each and every day.

Again, I thank you for your continued support as a School Board Member and look forward to seeing you in September. Please know I will begin my newsletters again in August with a schedule of my monthly meetings. I am open to any suggestions for topics of discussion, and if you have concerns please feel free to contact me.

Sincerely,

Sheila Moulton, 431-8575
