

CLARK COUNTY SCHOOL DISTRICT REGULATION

R-5124

EXAMINATIONS AND EQUIVALENT CREDIT

I. Credit by Examination

- A. Credit by examination is an opportunity for students to be awarded credit based on demonstrated competence through an examination process. Credit by examination is available to students who have not received a mark for progress or grades in the class.
- B. Courses which primarily involve psychomotor skills are excluded from credit by examination.
- C. Students, counselors, and administrators may initiate the process by contacting the Nevada Learning Academy at CCSD. Each examination will be based on the standards of content and performance prescribed for the course and the adopted curriculum.
- D. Credits earned by examination will post as internal credits, and a "P" for pass will be recorded on the student transcript. Credit by examination does not impact GPA.

II. Equivalent Credit – External/Concurrent Options

- A. Any student in the Clark County School District may earn high school credit from an approved program outside of the student's comprehensive high school. Students may be allowed to earn a total of six external credits from approved programs.
- B. The Instructional Design and Professional Learning Division shall establish guidelines which provide direction to high schools and students on granting concurrent credit options.
