AB 288: Transition from HSPE to New Graduation Requirements

Starting in 2014-15 school year:

- Students in grade 11 will participate in one state-mandated assessment of College and Career Readiness (CCR)—legislation does not define content of CCR outside of some references to the Common Core State Standards
- Participation in the grade 11 CCR assessment will be required for students to graduate with a regular or advanced diploma
- Passage of the CCR assessment will not be required for graduation with a regular diploma (*could it be for or advanced diploma or post-secondary placement?*)
- Students will participate in four end-of-course (EOC) assessments – 2 in mathematics; 2 in English Language Arts
- Students must pass all four EOC exams at mandated cut scores to graduate with a regular or advanced diploma
- Retest opportunities must exist for the EOC exams
- Students with disabilities can opt out of CCR & EOC based on decision of Individualized Education Program (IEP) team (no regular diploma received)
- There are four anticipated vendors of interest for the Grade 11 CCR Assessment (alpha order):
 - ACT
 - Pearson
 - SAT
 - Smarter Balanced
- Anticipated vendors of interest for the EOC Exams are unknown; there has been a working assumption in legislative testimony that Smarter Balanced will be selected for EOC so as to ensure vertical alignment with grade 3-8 assessments and opportunity to sufficiently collect and report growth model data
- Procurement processes will be dictated by test selection (RFP vs sole source contracting)

For the transition years, including 2013-2014 school year:

- State Board must prescribe requirements for graduation for students who are in the 12th grade in 2013-14; 2014-15; and 2015-16.

*Not an objective in the curriculum but professional development is provided to teachers by The Rape Crisis Center on this topic.

**Not within CCSD sex education curricula, but aligned to Nevada State Health Standards under Unintentional Injuries and Violence

1. For the **2013-2014** fiscal year, state Distributive School Account (DSA) funding for CCSD is **\$5,457 per student**, an **increase of \$200** or **3.8 percent**.
2. This level of DSA funding is consistent with estimates used to build the Board's 2013-2014 Final Budget, thus **no significant changes will be needed** (other than for the ~~designated enhancements discussed below~~).
3. Funding the district's priorities as outlined in the 2013-2014 Final Budget will still be possible; in particular the funding of **793 additional teacher positions** to reduce class size and the addition of **17 additional elementary assistant principal positions**.
4. **No funding reductions** will be required in 2013-2014.
5. For the 2014-2015 fiscal year, state Distributive School Account (DSA) funding for CCSD is **\$5,544 per student**, an **increase of \$87** or **1.6 percent**.
6. Designated funding was added for additional pre-K, Reading Skills Development Centers, and Kindergarten programs at the 15 schools with the highest **English language learner** student populations.
7. Designated funding was added over the biennium to expand the number of **all-day Kindergarten** programs to approximately 57 additional schools.
8. Designated funding was added over the biennium to **reduce class sizes in Kindergarten** programs to 21:1.

Note: This analysis is only based on publically available funding bills. Other than the DSA amounts which are included in SB422, no CCSD-specific details have been published by the State Department of Education. Thus, the estimates of the impact of designated funding enhancements are based off of very preliminary information.

Bill #	Topic	Impact	Signed
AB103	School Police	If approved could have substantial impact on the district in a variety of ways: would expand the investigatory abilities of School Police to investigate Category A felonies, and may allow arguments for coverage of heart and lung workman\'s compensation for reclassification of officer\'s duties as Category 1. Several local law enforcement agencies argued that even given a larger scope for investigations they would not cede those investigations, nor would we have the forensics and capability to handle those investigations. With expansion of duties and powers, increased training, training manuals and procedures and new regulations would all have to be developed. Passage would mean repeal of current NRS regarding jurisdiction, which would also have to be created.	No
AB104	E-Verify		No
AB106	OSHA	No impact.	No
AB112	Evergreen Clause	Provides that upon the end of the term stated in a collective bargaining agreement, and until a successor agreement becomes effective, a local government employer shall not increase any salary, wages, contributions or other monetary compensation or benefits paid to or on behalf of employees in the affected bargaining unit.	No
AB124	Millennium Scholarship	Requires tracking and verification of violations of the code of honor at the high school level by administrators and counselors, to assure consistency in reports of cheating and subsequent investigations and discipline issued. Implementation would require additional procedures to be developed to notify students and parents of the requirements and would create new duties for both administrators and counselors in administration of the program.	No
AB140	Job Creation	Requires a governmental entity to notify the Department of Employment, Training and Rehabilitation of any eligibility requirements relating to the creation of jobs included in purchasing or public works contracts.	No
AB143	Firearms	Impact primarily upon NSHE; impacts CCSD students only when visiting a higher ed campus.	No
