

CLARK COUNTY SCHOOL DISTRICT POLICY

INTRODUCTION TO POLICIES AND REGULATIONS

0101

The Board of School Trustees has adopted “policy governance” as its method of governing the Clark County School District. Under policy governance, the Board defines and demands educational results, delegates to the Superintendent the authority, with certain boundaries or executive limitations, to accomplish those goals, and then monitors the District’s progress to ensure that the ends are accomplished.

In this context, the purpose of these Policies and Regulations is to provide directions regarding the details of District operations. Policies are more general principles, while Regulations contain specific details and procedures. They are effective as of the indicated policy governance review date, which is the date that they are approved by the Board of School Trustees, and remain in effect until canceled or revised. They should be applied consistently and interpreted in a manner which facilitates the accomplishment of the educational ends, within the bounds of the law and executive limitations, as established by the Board of School Trustees.

The Superintendent delegates to appropriate deputy superintendents, assistant superintendents and regional superintendents the authority to make decisions consistent with these policies and regulations.

Questions regarding the interpretation of these Policies and Regulations, as well as recommendations for their improvement and clarification, should be referred to the administrative division identified as having review responsibility.

Review Responsibility:	Superintendent
Adopted:	[8/1/66]
Revised:	(10/26/71;4/1/82)
