

## CLARK COUNTY SCHOOL DISTRICT REGULATION

6150.1

### USE OF INSTRUCTIONAL VIDEO SERVICES BY OTHER PUBLIC SCHOOL DISTRICTS, CHARTER SCHOOLS, PRIVATE SCHOOLS, AND HOME SCHOOLING PARENTS

- I. The KLVX Communications Group provides video-based instructional media to CCSD students, teachers, and staff using TV, ITFS, cable, satellite, broadband, film, CD, DVD, videotape, printed teacher guides, Internet databases, and other technologies. Video classes and instructional media carried on closed systems such as cable, satellite, or ITFS are available to schools and individuals with reception equipment.
- II. KLVX will offer two levels of service to non-CCSD educational institutions and home schooling parents. Users would have access to programs offered by KLVX-TV.
- III. Purchasers of the Basic Service will receive the schedule, catalogs, updates, teacher guides, and student materials for use with TV, ITFS, and satellite programs.
- IV. Purchasers of the Custom Service will receive the Basic Service, with the addition of the opportunity to request special ITFS scheduling or physical loan of video library materials and dubbing of cleared materials where it would not conflict with a CCSD use.
- V. The fee for Basic and Custom Service will be established annually by KLVX management based upon such things as CCSD's per pupil costs for acquisition, copying, scheduling, transmitting, and administration.
- VI. Subscribing schools of either service will receive the opportunity to participate in one staff in-service training seminar per year. All capital costs for installation of TV, cable, ITFS, or satellite equipment will be the responsibility of the purchaser.
- VII. Home schoolers may subscribe, but their fees will be based on the cost of each teacher guide, workbook, or dub used.
